Projects

Elderly Care Agentic AI, *AI-powered assistant for elderly healthcare and reminders* 08/2025 – 09/2025

Role: *Front-End Developer*

- Collaborated in developing an AI-powered elderly care platform that helps users schedule medical appointments, set reminders, and interact with healthcare services through natural language. Focused on creating a responsive and intuitive user interface with Tailwind CSS for a seamless user experience.
- Project presented at Atos Srijan 2025 hackathon and selected for demo before company executives.

Tech Stack

- HTML
- Tailwind CSS
- JavaScript

My Portfolio, *My personal portfolio*

09/2025 – 09/2025

A responsive and modern portfolio website designed and developed to showcase my skills, projects, and achievements as a full-stack developer. Built using HTML, CSS, Tailwind CSS, and JavaScript, it reflects my clean coding style, attention to design, and ability to build user-friendly interfaces. The site highlights my professional journey, key projects like *Classic Tailors* and *AI-based initiatives*, and provides easy access to my LinkedIn, GitHub, and contact information.
